## SUMMARY

---

- Senior Front-End Developer with over 12 years of experience specialized in building scalable, user-focused web applications. Proven expertise in **React.js**, **Next.js**, **TypeScript**, JavaScript, and a broad range of front-end technologies. Comfortable collaborating in Agile environments, driving product development and delivering high-quality code.
- **Front-End Architecture Leadership at Nexpert:** built a Design System with Storybook that cut rework and sped up delivery by ~45%, alongside Web Core Vitals optimization that reduced load time by ~40%.
- **Internet Banking Modernization at Leega:** migrated an application from Flutter Web to a modern stack (React, Vite, Tailwind CSS, Zustand), including a Figma-based Design System.
- Experience in business-critical environments as an outsourcing partner for clients in the oil & gas, pharmaceutical, and financial sectors, delivering high-complexity solutions in multidisciplinary teams.

## SKILLS

---

- **Front-End Development:** React.js, Next.js, TypeScript, JavaScript ES6+, HTML, CSS, SASS, Tailwind CSS, Redux, Zustand, Styled Components, GraphQL, Jest, React Testing Library
- **Back-End & APIs:** Node.js, NestJS, GraphQL, REST APIs, TanStack Query (React Query), Axios, Swagger, Postman
- **Other Technologies:** Git, GitHub, Figma, Storybook, Vite, PWA, Vercel, CI/CD, Angular, Angular Material, .NET, Oracle/Dapper/Entity Framework, Docker
- **Methodologies:** Agile, Scrum, Kanban
- **Soft Skills:** Communication, Collaboration, Problem Solving, Time Management, Technical Leadership, Ownership

## PROFESSIONAL EXPERIENCE

---

### Senior Front-End Developer | [Nexpert](#) | Remote | Nov 2025 – Present

- Development and evolution of a multi-tenant financial platform for invoice management using React, Next.js, and TypeScript.
- Led front-end architecture and integration with NestJS APIs and the TOTVS Protheus ERP.
- Built a Design System with Storybook, cutting rework and speeding up delivery of new features by ~45%.
- Implemented unit, integration, and E2E tests, increasing reliability and reducing production failures.
- Optimized Web Core Vitals through code splitting, lazy loading, and strategic caching, reducing load time by ~40%.
- Rolled out observability and monitoring practices, cutting incident response time by ~60%.

### Front-End Developer | [Leega](#) | Remote | Oct 2024 – Nov 2025

- Development for a financial-sector client, focused on migrating an internet banking application originally built in Flutter Web.
- Built a Figma-based Design System using Storybook.
- Stack: React, Vite, Tailwind CSS, Zustand, Jest, TanStack Query (React Query), ESLint, and Prettier.

### Front-End Developer | [IBM](#) | Remote | May 2023 – Sep 2024

- Outsourcing for an oil & gas client: migrated a legacy ASP system to Angular with Angular Material.
- Back end in .NET with data management in Oracle using Dapper and Entity Framework.
- Continued deepening expertise in React and Next.js as specialization technologies.

### Front-End Developer | [CI&T](#) | Remote | Jul 2022 – May 2023

- Outsourcing for a pharmaceutical client: e-commerce built in Next.js and a mobile app for both brands in React Native.

- Stack: TypeScript, React, Next.js, React Native, GraphQL, Node.js, Redux, Styled Components, Jest.

**Front-End Developer | Americanas S.A.** | Remote | Apr 2021 – Jul 2022

- Developed new features and modernized existing solutions for the Americanas Empresas e-commerce platform.
- Stack: TypeScript, React, Next.js, Node.js, Redux, Styled Components, Jest, GraphQL.

**Front-End Developer | Huia** | Porto Alegre, RS | Aug 2018 – Apr 2021

- Developed plugins for DjangoCMS in an Agile (Scrum) environment with a Product Owner, Scrum Master, and developers.
- Technologies: Django, DjangoCMS, SASS, REST, Docker, Git, GitLab, microservices.
- Earlier projects: Drupal 8, WordPress, Laravel, Lumen, EJS, Jenkins, Gulp, Grunt, PHP, Python.

**Front-End Developer | Zeta Informática Ltda.** | Porto Alegre, RS | Jul 2017 – Aug 2018

- Web version of a legacy system in NodeJS/AngularJS and an indicators site for ERP clients in Ruby.
- Developed electronic documents (MDF-e and CT-e) via the ERP integrator in Java.

**Front-End Developer | Huia** | Porto Alegre, RS | Mar 2015 – Feb 2017

- HTML, CSS, SASS, LESS, Stylus, Bootstrap 3, Foundation, BEM, JavaScript, jQuery, Gulp, Grunt, Backbone, PHP, Kohana, WordPress, C#, .NET, SQL Server, MySQL, Jenkins, Git.

## EDUCATION

---

- **Uniritter** | Bachelor's Degree in Computer Science | 2015 – 2021
- **Alcides Maya Tecnologia** | Information Technology Technician | 2013 – 2014
- **Micros & Methodos Informática** | Information Technology Technician | 2011 – 2012

## COURSES & CERTIFICATIONS

---

- **AI-Assisted Development** | Claude Code, Codex, and Cursor | —
- **Bachelor's Degree in Computer Science** | Uniritter | Completed in 2021
- **Information Technology Technician** | Alcides Maya Tecnologia | Completed in 2014

## LANGUAGES

---

- Portuguese (Native)
- English (Professional Working Proficiency)
